

THE OAK RIDGE BOYS AND GIRLS CLUB AND DOUBLETREE HOTEL - OAK RIDGE TOOK PART IN “A Community Food Drive Day”

On December the 16th @ 2:00 PM the Doubletree and their Care Team was on site at the Oak Ridge Boys and Girls Club. The kids were recognized for all of their hard work.

During these challenging economic times, more people are seeking food assistance than ever before. The latest Food-bank Policy Brief shows that local food pantries are experiencing a 31% increase in demand compared to this time last year. As many people struggle to put food on the table during the coming holiday season, The Doubletree Teaching Kids to CARE team is sharing with the students about the importance of food, the challenges with hunger in our world today and how all of us can give back to our local communities.

For every item they collected, Doubletree Hotels will make a small donation to an international humanitarian organization to help fight world hunger – all in an effort to instill the value of helping others in future generations. Based on previous Teaching Kids to CARE initiatives, the challenge is for all teams to raise and collect one million non-perishable food items during the length of the initiative.

We are so thankful for all of the hard work from the Boys and Girls Club, and our local community for helping collect food. The food was taken to St. Joseph's in Oak Ridge, TN.
